Materials:

- Empty paper towel roll
- Green paint, 2 shades
- Scissors
- Candy corn
- Plastic wrap
- Raffia
- Clear tape

Instructions:

- 1.) Paint paper towel roll with two different shades of green.

2.) Cut paper towel roll in half.

3.) Cut a tear-shape opening in the middle.

4.) Paint a bit of the inside.

5.) Stand up the candy corn on a piece of plastic wrap, or you can just place them as you wish. I decided to stand them up so the yellow would face out and therefore look more realistic.

6.) Wrap them up tightly and tie with some raffia.

7.) Tie several strands of raffia around the top.

8.) Tape around the bottom of the raffia so they stay close together.

9.) Scallop the top of the paper towel roll and place candy corn bag inside.

10.) Scallop a small piece of paper towel roll, cut in the center and open it up.

11.) Tightly squeeze top of paper towel roll and tie with a piece of raffia.

12.) With a glue gun, glue the smaller piece of paper roll to the other paper roll. This will add volume and hide the raffia.

13.) Once the glue is dry, you're done!

Creating these unique [Cardboard Tube Pilgrims and Indians](#) will also help you learn about recycling. Learn how to preserve the environment, while celebrating this holiday with the whole family.

Materials:

- 1 paper towel roll cardboard tube
- [Patterns](#)
- 2 small feathers
- 2 pink miniature pom poms
- 1 brown miniature pom poms
- 13-15 yellow miniature pom poms
- 3 red small pom poms
- Acrylic paint: brown, flesh, light brown, white, black and pink
- Black fine tip marker
- Felt: tan, brown, gray, white, black, orange, peach, and green
- Scissors
- Hot glue gun
- White craft glue
- Paintbrush

Instructions:

1.) First, cut the paper towel roll into three sections, one for each character.

Pilgrim Man

1.) Paint the top 1/3 of the cardboard tube with flesh-colored paint. Use brown paint to add on hair around the back and sides of face. Leave enough room to add facial features later. Let dry before continuing.

2.) Roll up tube in a piece of brown felt. Trim felt to the height of the roll and be sure you have enough to wrap all the way around it as well, overlapping slightly.

3.) Cut the felt strip about 2/3 of the way up for the pilgrim's clothes, leaving the remainder for his hat. Glue the larger brown piece of felt around the tube for his clothes and the smaller section around the top for his hat. Glue seams in the back.

4.) Cut out hat brim from brown felt and hat band from black felt using the patterns. Cut out the buckles from black and white felt according to the pattern. Glue the hat brim around the bottom of the hat and the black band above the brim. Glue the buckle (white first, then black) onto the front of the hat on the band.

5.) Cut out the pilgrim's collar from the white felt using the pattern. Glue around the neckline on top of the brown felt.

6.) Cut out pumpkin and stem from orange and green felt, glue to the front of the pilgrim's body. Cut out 2 hands from peach felt and glue to the front, overlapping the sides of the pumpkin.

7.) Use the handle end of a paint brush dipped in white paint to dot on eyes. Do not add black until white is dry. Use a scruffy paint brush or a roughed up cotton swab to add cheeks using pink paint. Be sure to dab off excess pink paint before applying cheeks (dry application). Glue a miniature pink pom pom on for the nose and use fine tip black marker to add the mouth and eyebrows. Dot on blacks of the eyes.

Pilgrim Woman

1.) Paint the top 1/3 of the cardboard tube with flesh colored paint. Use light brown paint to add on hair around the back and sides of face. Leave enough room to add facial features later. Let dry before continuing.

2.) Roll up tube in a piece of gray felt. Trim felt to 2/3 the height of the roll and be sure you have enough to wrap all the way around it as well, overlapping slightly.

3.) Glue the gray felt around the tube for her clothes, seam should be in the back.

4.) Cut out the pilgrim woman's collar from the white felt using the pattern. Glue around the neckline on top of the gray felt.

5.) Cut a piece of white felt wide enough to cover the top of the tube and hang down about 1" in the back. The shape will resemble a semi-circle, adjust and trim as needed to make her bonnet.

6.) Cut out basket from tan felt and 2 hands from peach felt using pattern. Glue basket to the front of the pilgrim woman and glue hands on, overlapping the sides of the basket. Glue 3 small red pom poms to the top of basket for apples.

7.) Use the handle end of a paint brush dipped in white paint to dot on eyes. Do not add black until white is dry. - 3.) Glue the tan felt around the tube for his clothes, seam should be in the back.
- 4.) Cut a piece of black felt wide enough to cover the top of the tube and long enough to reach the bottom of both sides of the tube. Use hot glue to attach the hair to the top of the tube. Dot a bit of glue at the tops of the sides as well, but not all the way down, just to hold it in place. Cut the hair on both sides into three pieces and braid together. Hot glue the braided ends and glue to the side of the tube.
- 5.) Glue two feathers to the side of the head, then wrap headband around the head, seam in the back and glue in place.
- 6.) Cut out the corn husk and leaf from green felt and 2 hands from brown felt using the pattern. Glue the large green husk to the front of the Indian. Glue on two rows of miniature yellow pom poms for the corn kernels, and then glue the green leaf at the bottom of the kernels, overlapping them slightly. Glue the hands on, overlapping the corn.
- 7.) Use the handle end of a paint brush dipped in white paint to dot on eyes. Do not add black until white is dry. Use a scruffy paint brush or a roughed up cotton swab to add cheeks using pink paint. Be sure to dab off excess pink paint before applying cheeks (dry application). Thrifty Thanksgiving Table Boat Race

By: [Brittany from One Charming Party](#)

"The Nina is coming up on the Pinta, and the Nina wins!" For an exciting time at the turkey table, look for great Thanksgiving activities for kids like the [Thrifty Thanksgiving Table Boat Race](#). It's made from old juice cartons and balloons, which should make this fun game for children very easy on the wallet. Be sure to discuss how Columbus and his boats are connected to the holiday of Thanksgiving. Thanks is in the air, so put as much in your balloon as you can, and you might win.

Materials:

- One small milk carton or whipped cream carton to make 2 boats
- Exacto knife
- Hole punch or scissors
- Brown spray paint
- One 12" white balloon per child or boat
- Sticker letters
- Blue paper like wrapping paper or butcher paper

Instructions:

1.) Take an empty milk carton and cut it in half lengthwise with an Exacto knife. Make sure you cut it through the pinched together part at the top, not the other direction.

3.) Using a hole punch or scissors, make a hole at the flat end of the boat (look at the picture for reference). Punch more holes around the first or use the scissors to enlarge the hole to the size of a dime.

4.) Spray paint each boat brown and let dry.

5.) Meanwhile, take your blue wrapping or butcher paper and draw a map of the new world with a black marker for the boats to sail to.

6.) Once your boats are dry you can add sticker letters to the sides to name your boats.
