Kooky Candy Corn Softie

By: [Amanda Formaro from Crafts by Amanda](#)

Halloween may be spooky, but the [Kooky Candy Corn Softie](#) is frighteningly adorable. This fun plushie is the perfect beginning sewing project for kids of all ages, and it'll look cute no matter what. Set these quirky decorations in your window and trick-or-treaters will come rushing in.

Materials:

- [Softie template](#)
- Felt: orange, white and yellow
- Yarn: white and black
- Child-safe plastic sewing needle
- 2 large sew-on googly eyes
- Cotton batting
- Needle and thread
- Pins
- Felt glue
- Scissors

Instructions:

1.) To begin, layer two pieces of yellow felt, two pieces of white, and two pieces of orange. Then cut out the pattern pieces and pin them to the appropriate color felt.

2.) Cut around the pieces, leaving a little extra above the middle and bottom pieces.

3.) Remove the pins and separate the pieces. Flip one set over so that when you combine the pieces, one will be for the back and one for the front.

4.) Using felt glue, attach the center section to the bottom, covering the yellow overlap with the orange. Repeat for the white top section.

6.) Kids can sew the pieces together (using your guide holes if you created them) and the felt glue will help hold them together while they work.

5.) While a child safe needle is easy to poke into felt, it takes a little coaxing to get the wide end of the eye through the felt. To make things easier on little ones, a grown up should create the sewing holes first. To do this, poke the child safe needle in until it stops at the eye, and then gently twist the needle while pulling and it will slide right through.

7.) Once your child has finished sewing the sections, use the pattern as a guide to sew a black yarn smile onto one of the candy corns. Sew on the googly eyes.

8.) Lay the pieces together back to back and sew them together with your sewing machine to close bottom corner to bottom corner, leaving the flat bottom open.

9.) Turn inside out and fill with cotton batting then sew up the bottom.

Once you get all the way around, adjust the yarn upward and continue going around again. Do this a third time to complete the web.
