## Egg Carton Daffodils

By: [Andreja from Itsy Bitsy Fun](#)

Ready to think spring? Grab your egg cartons! These Egg Carton Daffodils are a must-make for sunny weather. You can turn these recycled crafts into a bouquet for Mom, or you can use a toilet paper roll as a vase for your Egg Carton Daffodils and set them up for decoration. The best thing about these adorable flower crafts for kids is that you probably have everything you need hiding in your recycle bin, so you can get started on them right away.

### Materials:

#### For the flowers

- 1 egg carton
- Green drinking flex straws
- Yellow and orange paint
- Glue (white school glue) and scissors

#### For the flower holder

- Toilet paper roll
- Colored paper
- Decorative strip

**Instructions:**

1.) Cut the egg carton so you get 4 (or more) cup parts and 4 peak parts. Punch a hole in each cup part and peak part if they do not already have a hole. You can easily punch a hole with a kitchen knife or scissors.

2.) Paint the different pieces of the daffodils and wait for them to dry.

3.) When the paint is dry, push the straw through the back of the cup part of the egg carton. Apply glue on the bottom of the peak part and attach it to the cup part. ## I Pick You Spring Treat

By: [Laura Kelly from Laura Kelly Designs](#)

Bring a smile to someone special's face when you hand them the I Pick You Spring Treat. These spring crafts for children are fun and easy to make, and they're sure to brighten up anyone's day. These fun, easy crafts for kids are great gift ideas for teachers from students, or if you change up the wording a bit, they make the cutest kids' crafts for Mother's Day. The options are endless for this adorable craft for kids.

### Materials:

- Cardstock (blue and green)
- ModPodge
- Brush
- Large Hershey bar
- Chipboard flower
- Buttons from Buttons Galore and More
- Hot Glue from Adtech
- SmoochGlitz Sparkle Ink
- Tissue Paper

### Instructions:

1.) Cut the tissue paper into approximately one inch squares. Spread a layer of ModPodge on your chipboard flower and apply a layer of the tissue squares, overlapping each other. Add a few layers, applying ModPodge before and after each until flower is covered.

2.) While that piece is drying, cut your blue and green paper to wrap around the candy bar. If you want to add a little glam, paint some polka dots on the paper using the SmoochGlitz Sparkle Ink. Wrap your paper tightly around the candy bar and use hot glue to adhere it.

3.) Cut a stem from the card stock that is long enough to reach the length of the candy bar. Glue the stem and a few leaves to the wrapped candy bar using hot glue. Add a row of buttons between the two colors of card stock and a few buttons to the leaves. You can also use the SmoochGlitz Sparkle Ink to decorate the leaves and stem.

4.) When your flower is dry, hot glue it to the wrapped Hershey bar. Add as many buttons as you would like to create the three-dimensional center of the flower. To add the "If teachers were flowers, I'd pick you!" message, you can either use your computer to print the text on green card stock, or you can simply write the message on your cardstock with a Sharpie marker.

## Crepe Paper Flowers

By: [Gina from Willowday](#)

These gorgeous Crepe Paper Flowers are the ideal gifts kids can make for spring holidays like May Day and Mother's Day. Kids can make these paper flowers with ease, and the result is positively beautiful. Create a whole garden of flowers with your little ones and use them to decorate your home for spring.

### Materials:

- Crepe paper in green and yellow
- Florist tape (or Craft Paper Packing Tape)
- Scissors
- Wire for binding
- Sticks

### Prep the flowers:

1.) Fold yellow crepe paper in an accordion fold, then cut out the rounded petals along the edges (see diagram on page 15). You will need to create a smaller middle section that is approximately 6 inches wide and a larger section that spans the maximum width of your crepe paper.

2.) Cut individual leaves from your green crepe paper. You will need to cut your leaves with long stems to better wrap them around the stick.

### Assemble the flowers:

1.) Set the smaller middle crepe paper section on the top of the stick and wrap its base with florist tape to attach it to stick.

2.) Wrap the rest of your yellow crepe paper pieces around the stick, encasing this small center, and attach with the florist tape to the stick. Repeat until all flower petals have been attached.

3.) Wrap the base of the flower with florist tape. You can add wire and more floral tape for extra stability.

4.) Attach leaves one at a time with wire and cover with florist tape.

## Soda Can Flowers

By: [Crissy from Crissy's Crafts](#)

This challenging but amazing craft is perfect for the older crafty kids. Help the environment while you make something beautiful when you craft Soda Can Flowers. Kids' crafts for spring are always so uplifting and cheery no matter what it looks like outside. Plus, these thrifty blossoms look so good when they're finished that no one will believe that they came from a soda can!

### Materials:

- Soda cans
- Flat nose pliers
- Round nose pliers
- Paper clips
- Pencil
- 3 1/2" cardboard circle
- 2 1/2" cardboard circle
- Hole making tool or nail
- Hammer
- Sharp scissors
- Knife
- Primer
- Scrapbook brad

**Instructions:**

1.) Using the knife, cut the top and bottom off of the soda cans. Make a slit down the side and then roll the can out so that it is just a flat piece of aluminum.

2.) Trace the cardboard circles onto the soda cans. You should have two 2 1/2" circles and three 3 1/2" circles. Clip the same-sized circles together using your paper clips and punch a hole through the middle of the stack.

3.) Cut each circle into flower shapes. Trim the ends to give it a rounded look.

4.) Using the pliers, curl the petals of your flowers.

5.) Use a scrapbook brad to secure your flowers together.

6.) Spray with a good layer of primer to finish. Add sticks to the back of the flowers to make stems. Put them in a decorative vase and you're done!

## Water Bottle Flower Power

By: [Crissy from Crissy's Crafts](#)

Spring is in bloom, and so are your water bottles. These flowers are absolutely adorable ways to help save the environment and celebrate spring all in one project. This craft would make a great gift for Mother's Day or a wonderful decoration around the house. This Water Bottle Flower Power project is both beautiful and budget-friendly, which means they just can't be beat.

### Materials:

- Styrofoam
- Scissors
- Paint brush
- Recycled can
- Fabric
- Water bottle
- ModPodge
- Glue gun
- 1 stick
- Ribbons.

### Instructions:

1.) Cut the top part of the bottle off. Cut five lines going up towards the bottle cap. Bring the "petals" back so they are sticking out to the sides.

2.) Cut five rectangles from fabric. Using ModPodge, glue the fabric to the plastic petals.

3.) Trim the petals so they are rounded. Turn the flower around and apply ModPodge on back and again on the front.

4.) Glue a ribbon around the bottle cap. Glue a piece of fabric to the other bottle cap and glue that cap to the front of the flower.

5.) Wrap a ribbon around the stick and glue the stick to the back bottle cap (the one without the fabric). Glue a piece of fabric on top of the stick, onto the bottle cap.

6.) Insert the Styrofoam into the can and then insert the flower into the Styrofoam. Decorate with paper grass.

## Butterfly Crafts

### Watercolor-ful Doily Butterflies

By: [Amanda Formaro for AllFreeKidsCrafts](#)

Fly into a world of happiness when you make these totally cool crafts for kids. The Watercolor-ful Doily Butterflies are cheerful spring kids' crafts that add a burst of color wherever they're placed. Hang these from the ceiling for a fun, flying effect, or place them around the house as wonderful, bright surprises. This rad technique from Amanda Formaro is a blast, and it's easy enough for the little ones to participate. These flying friends are affordable, allowing you to make tons of pretty pals.

#### Materials:

- 1 large paper doily
- 1 medium paper doily
- Food coloring or watercolor paints
- Paintbrush
- Water
- 2 black pipe cleaners
- Scissors

#### Instructions:

1.) Place the doilies onto a towel that you are not concerned about staining. Paint both sides of each doily with water. Be sure to handle them carefully as they are delicate and can tear easily.

2.) Drip food coloring onto the wet doilies and spread it around with a paintbrush dipped in water.

3.) Turn the doilies over so that the towel will soak up the excess moisture. Let the doilies dry completely. Fold doilies in half and then in half again.

4.) Use scissors to cut a simple butterfly shape by cutting a small triangle section out of the center of the doily's side.

5.) Fold a pipe cleaner in half. Run the pipe cleaner up the center of the doily and twist at the "head" of the butterfly to create the antennae. Trim ends.

## Beaded Butterfly Beauty

By: [Amanda Formaro for AllFreeKidsCrafts](#)

### Materials:

- Recycled cardboard tube
- Black pipe cleaner
- Pony beads, various colors
- Craft paint
- Scissors
- Hot glue gun

**Note:** Adults should handle the hot glue gun. White craft glue can be used as an alternative, just keep in mind that it will require drying time.

**Instructions:**

1.) Flatten the cardboard tube, and then cut it in half. Each cardboard tube can make 4 butterflies.

2.) Paint cardboard tube inside and out and allow to dry.

3.) Bend pipe cleaner in half and thread on 6 pony beads. Trim the end of the pipe cleaner for antennae.

4.) Cut cardboard tubes into 1/2" strips. Bend strips about two-thirds the way down to create a small and large loop. Lay tubes next to each other and glue together.

5.) Glue the beaded body to the top of the cardboard tube wings.

- Americana Gloss Enamels:
  - Citron Green
  - Baby Pink
  - White
  - Primary Yellow
  - Razzle Berry
  - Lavender
  - Calypso Blue
  - Festive Green
  - Bright Orange

**Instructions:**

1.) Starting with the 1 1/4" spouncer, twirl the spouncer sponge head around in the Razzle Berry paint. Use this same motion to apply the paint to the glass vase, creating a circle. 2.) Using the liner brush and Festive Green paint, apply long strokes from the circles downward to the bottom of the vase. Use the liner brush and Citron Green to add small leaves, two per stem.

4.) Dip the handle end of one of the paintbrushes into the white paint. Add a white dot to each colored flower. For white flowers, create the dots in any color you choose.

5.) Allow vase to dry for 48 hours, then place in a cool oven. Heat oven to 325 degrees F and bake for 30 minutes. Turn off oven, prop door oven and allow oven to cool completely before removing vase. Alternatively, you can air cure the paint for 21 days.
